

List of publications

- Suhre, K., V. Crassier, C. Mari, R. Rosset, D. W. Johnson, S. Osborne, R. Wood, M. O. Andreae, B. Bandy, T. S. Bates, S. Businger, C. Gerbig, F. Raes, and J. Rudolph, Chemistry and aerosols in the marine boundary layer: 1-D modelling of the three ACE-2 Lagrangian experiments, *Atmos. Environ.*, **34**:5079–5094, 2000.
- Suhre, K., D. W. Johnson, C. Mari, R. Rosset, S. Osborne, R. Wood, T. S. Bates, and F. Raes, A continental outbreak of air during the Second Aerosol Characterization Experiment (ACE 2): A Lagrangian experiment, *J. Geophys. Res.*, **105**:17911–17924, 2000.
- Crassier, V., K. Suhre, P. Tulet, and R. Rosset, Development of a reduced chemical scheme for use in mesoscale meteorological models, *Atmos. Environ.*, **34**:2633–2644, 2000.
- Cohard, J.-M., J.-P. Pinty, and K. Suhre, On the parameterization of activation spectra from cloud condensation nuclei microphysical properties, *J. Geophys. Res.*, **105**:11753–11766, 2000.
- Johnson, D. W., S. Osborne, R. Wood, K. Suhre, R. Johnson, S. Businger, P. K. Quinn, A. Wiedensohler, P. A. Durkee, L. M. Russell, M. O. Andreae, C. O'Dowd, K. Noone, B. Bandy, J. Rudolph, and S. Rapsomanikis, An overview of the Lagrangian experiments undertaken during the North Atlantic Regional Aerosol Characterisation Experiment (ACE-2), *Tellus*, **52B**:290–320, 2000.
- Johnson, D. W., S. Osborne, R. Wood, K. Suhre, P. K. Quinn, T. S. Bates, M. O. Andreae, K. Noone, P. Glantz, B. Bandy, J. Rudolph, and C. O'Dowd, Observations of the evolution of the aerosol, cloud and boundary layer characteristics during the 1st ACE-2 Lagrangian experiment, *Tellus*, **52B**:348–374, 2000.
- Wood, R., D. W. Johnson, S. Osborne, M. O. Andreae, B. Bandy, T. S. Bates, C. O'Dowd, P. Glantz, K. Noone, P. K. Quinn, J. Rudolph, and K. Suhre, Boundary layer and aerosol evolution during the 3rd Lagrangian experiment of ACE-2, *Tellus*, **52B**:401–422, 2000.
- Siems, S. T., G. D. Hess, K. Suhre, S. Businger, and R. R. Draxler, The impact of wind shear on observed and simulated trajectories during the ACE-1 experiments, *Aust. Met. Mag.*, **49**:109–120, 2000.
- Mari, C., K. Suhre, R. Rosset, T.S. Bates, B. J. Huebert, A. R. Bandy, D.C. Thornton, and S. Businger, 1D modeling of sulfur species during the First Aerosol Characterization Experiment (ACE-1) Lagrangian B, *J. Geophys. Res.*, **104**:21733–21749, 1999.
- Wang, Q., K. Suhre, P. Krummel, S. T. Siems, L. Pan, T. S. Bates, J. E. Johnson, D. H. Lenschow, B. J. Hubert, G. L. Kok, R. D. Schillawski, A. Prévôt, and S. Businger, Characteristics of marine boundary layers during two Lagrangian measurement periods, 1: General conditions and mean characteristics, *J. Geophys. Res.*, **104**:21751–21765, 1999.
- Wang, Q., D. H. Lenschow, L. Pan, R. D. Schillawski, G. L. Kok, A. Prevot, K. Laursen, L. M. Russell, A. Bandy, D. Thornton, and K. Suhre, Characteristics of marine boundary layers during two Lagrangian measurement periods, 2: Turbulence structure, *J. Geophys. Res.*, **104**:21767–21784, 1999.

- Cammas, J.-P., Jacoby-Koaly, S., K. Suhre, Rosset, R., and Marengo, A., The Atlantic subtropical potential vorticity barrier as seen by MOZAIC flights, *J. Geophys. Res.*, **103**:25,681–25,693, 1998.
- Suhre, K., C. Mari, T.S. Bates, J.E. Johnson, R. Rosset, Q. Wang, A. Bandy, D. Blake, S. Businger, F.L. Eisele, B.J. Huebert, G. Kok, R. L. Mauldin III, A. Prevot, R. Schillawski, and D. Thornton. Physico-chemical modeling of ACE 1 Lagrangian B. 1. a moving column approach. *J. Geophys. Res.*, **103**:16,433–16,456, 1998.
